# MINIPROJECT LOGBOOK Title: Fake News Prediction

#### **GROUP MEMBERS**

- 1. Kritika Donde
- 2. Disha Panchal
- 3.Lakshit Patil

Project Guide

Prof. Mandar Ganjapurkar

# Department of Information Technology

# A.P. Shah Institute of Technology

Kasarvadavali, Thane - 400 607

**University of Mumbai** 

(AY 2022-23)

#### **INSTITUTE VISION & MISSION**

#### **VISION:**

APSIT aspires to be a premier institute producing globally competent engineering professionals to contribute towards socio-economic growth of India.

#### **MISSION:**

To provide conducive and collaborative environment to meet contemporary & future Engineering challenges by project based and value-added education with the support of trained faculty

#### DEPARTMENT OF INFORMATION TECHNOLOGY

#### **VISION:**

To be a prime center of excellence by transforming students into globally competent IT professionals.

#### **MISSION:**

- 1. To develop, support and maintain state-of-the-art infrastructure to serve as a potent resource hub for IT industries.
- 2. To inculcate the problem solving, analytical, logical skills to promote the culture of creativity and innovation among the students.
- 3. To adapt with the transformation of the technology emphasizing on interdisciplinary studies, exposure to emerging technologies and imbibing high standards of professional ethics and social responsibilities in all endeavor

### PROGRAM EDUCATIONAL OBJECTIVES (PEO's)

- PEO<sub>1</sub> PREPARATION: To prepare students for successful careers in industry, research and institutions of higher learning with social sense and responsibility.
- PEO<sub>2</sub> CORE COMPETENCE: The graduating professionals from Information technology will have a wide spread background of sciences, mathematics and fundamentals of Information Technology to solve dynamic universal industrial problems.
- PEO<sub>3</sub> BREADTH: To create graduates for competitive and innovative solutions to industry and society through projects by application of multidisciplinary knowledge inculcating team work and management skills.
- PEO<sub>4</sub> PROFESSIONALISM: To enrich students with leadership quality, professional ethics and entrepreneurial skills through various devised programs
- PEO5 LIFE LONG LEARNING: To promote student awareness and commitment to life long learning for professional engagement to benefit society at large.

## PROGRAM OUTCOMES (POs)

| PO's | OUTCOMES   |
|------|--|
| PO1  | An ability to apply knowledge of mathematics, science and engineering fundamentals in the field of computing.  |
| PO2  | Critically identify, formulate and evaluate emerging topics and the recent development in the field and Provide solution to futuristic engineering problems.               |
| PO3  | The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental and societal context.                                 |
| PO4  | Ability in requirement gathering, design and implementation of software with computer systems to analyze and interpret the data.   |
| PO5  | An ability to use the techniques, logical and analytical skills and modern engineering tools necessary for engineering practice.   |
| PO6  | An ability to design a system component or process to meet desired needs within realistic constraints such as economic, environmental, social, cultural and safety issues. |
| PO7  | An ability to understand an impact of engineering knowledge towards society and environment with need to sustainable solutions.  |
| PO8  | To inculcate professional ethics.  |
| PO9  | An ability to function effectively, individually and in teams to accomplish a common goal.   |
| PO10 | An ability to communicate solutions of complex computing problems effectively using reports and presentations to wide range of audiences.                                  |
| PO11 | To instill leadership and managerial skills in multidisciplinary environment.  |
| PO12 | Recognition of the need for and an ability to engage in life-long learning.  |

#### PROGRAM SPECIFIC OUTCOMES (PSOs)

- PSO1 To use modern computer languages, environments and platforms in creating innovative carrier paths in the areas of database, data analysis and application development.
- **PSO2** To apply theoretical foundations of Information technology in developing solutions for engineering problems that meet automation needs of industry and society.
- **PSO3** To design and implement efficient real-time solutions using evolving knowledge of information technology by demonstrating the practices of professional ethics and the concern for societal and environment wellbeing

#### **STUDENT INFORMATION**

**Project Title: Fake News Prediction**
